BRIDESMAID

Out-of-Town Attendant's Profile

The Bride and Groom are counting on you to look your very best for their wedding. Therefore it is very important to have these measurements taken by a professional seamstress or bridal professional. We will not be held responsible for a poorly fitted gown if measurements are not taken professionally. Bridesmaid gowns often require a larger size than regular women's ready-to-wear clothing. We will order according to the measurements provided. The dress size is for reference only.
